SPACE SAVER

Kendall Howard V-Racks - the ultimate space-saving solution for mounting servers and rack-mountable devices. Our V-Racks are equipped with your choice of 10-32 tapped or cage nut style rails, perfect for smaller equipment. Whether you prefer vertical or horizontal mounting, these racks can handle devices of any depth. With the option to wall-mount or place under a desk, the Kendall Howard V-Rack offers unmatched flexibility and optimized space utilization for your products.
